TELDENE R40MLT

## TELDENE R40MLT

100,00 \$

**Key Characteristics** • Organoleptically suitable for food contact • Nucleated random copolymer, contains anti-static agent • Excellent processability and flow-ability • Excellent transparency and dimensional stability • Good impact resistance • Potential for energy and cycle time saving • Reactor grade, no per-oxide added • Suitable for defined medical/Pharm-packaging applications, subject to NATPET approval • Food contact approval for specific applications (Refer to NATPET)

**Processing Methods** • Injection Molding, TWIM

[Data Sheet](#)

Category: Polypropylene Random Copolymer (PPRC)

Product Applications

Reviews (0)

### Product Applications

- Suitable for high clarity injection molding and Injection-Stretch Blow Molding (ISBM) applications
- Used for the production of housewares and cosmetic packaging, TWIM articles for food and non-food applications, CD cases and caps & closures and component parts for automotive industry

Supplying eco-friendly, top-tier products and services through advanced tech and optimized supply chains to meet customer needs.
